Sometimes it is difficult to find a simple version of a complex problem. A practice is a specific instructional activity. The real motivation for learners is learning. Yet, much instruction seems to assume when it comes to cognitive skills that students will learn on their own. Views Read Edit View history. Learning is facilitated when learners are provided appropriate learner guidance including some of the following: Oftenglitz, animation, multimedia, and games are justified as motivational. uses the following diagram to show the four phases surrounding problems: Theory, Research, and Models Vol.
