If you are a registered user who is already logged into the application and you try to access this page, you will be sent to the Login. I was a bit disappointed after going through the book when I found it doesn't devote a chapter to the use of AJAX.

Once complete, the users simply click the Create User button and the user will be created. When compiling and running the Media Share Library Starter Kit and working with the application for some time, you will then have something similar to what is shown in Figure 1. This list derives itself from the collection that the administrator has created as shown earlier.

You will learn how to manage Roles, Users, and the use of the Membership class, in the next chapter. You will see this addition after you are directed to the MyLibrary. Text format Comments Plain text.
