The difference between them, though, is that the hammer indicates the reversal of a bearish trend, while the Candlestick Row man points to the reversal of a bullish trend. Below are some of the key bearish reversal patterns, with the number of candlesticks required in parentheses. After a decline, the hammer's intraday low indicates that selling pressure remains.

The bigger it is, the more bearish the reversal. Some traders may prefer short. Such formations would indicate continued buying pressure and could be considered a continuation pattern. Use oscillators. Candlestick Row confirm improving momentum with bullish reversals. We have elected to narrow the field by selecting the most popular for detailed explanations. Further strength is required to provide bullish confirmation of this reversal. A candlestick can also be a doji, in which case the pattern would be a morning doji star.
