This book could have stood alone, period, if Brashares would have taken the time to fully develop the ending. I could have handled it if they were depressed. I got turned off at the part where Lucy and Daniel had their first ever conversation inside a dark classroom while the whole school was in chaos there was a crime scene outside.

Joaquim is very cruel toward those around him, including Sophia. Instead, it was beautifully written, and I was captivated by the journey of one man traveling through several lifetimes, trying to right the wrongs that he had inflicted upon his one true love. However, it swiftly moves along in chapters that not only alternate in POV, but also My Name Is Memory time periods including ancient settings and exotic and varied locations around the world. He kissed her with everything, because loving a person was all you could .

I listened to this as an audiobook with the most top notch narration I've ever heard. "Fallen" left me with so many questions and honestly i did not like the writing at all. Feeling responsible and sorry for causing her death plays into Daniel's connection, but it always comes back to Sophia's physical beauty or their "lusting".
