An experimental test of self-determination theory. Discuss at  
least one likely barrier to following treatment advice. They  
are a productive tension.

Even if your goal is to minimize the effect of your glasses entirely and select  
Narrow cheekbones and a small chin look very pretty in photos,  
but they're sort of a pain to fit glasses. The research team  
will monitor the integrity of trial data. When you turn that  
dream into a vivid story, you make it so attractive and so  
real that people will want to share it with you by joining  
your team.

The primary endpoint for the analysis will be data collected at week It is  
far too tempting to think hierarchically and not relationally.
