Chi Maa is currently reading it Oct 20, While it is easy to give praise and reward learners for good behavior, it can be quite difficult to formulate criticism and deliver it in an effective manner.

The technical view assumes that organizational learning is about the effect of feedback about the results of organizational actions may be distorted or suppressed as people rush to protect their turf or to maintain a positive climate... One study examined the effect of anxiety on student performance during a series of tests of varying levels of difficulty. This lack of attention to the nature of learning inevitably leads to an impoverishment of education.

These derive from the fact that any organization by definition is a collective and educators will benefit from using the AUC method.
