Awaiting results from MOSJ... Close PortenkoKessel, B. The purple sandpiper *Calidris maritima* is a stocky wader that breeds in the northeastern parts of Arctic Canada, in Greenland, Iceland, the Faroes, Svalbard, in Northern Scandinavia and the western parts of the Russian Arctic. In the North Pacific it is replaced by a similar species, the rock sandpiper *C. alpina*. Close Hanna ; Kondratiev, A. It has a dark brown plumage and an elongate, slightly downcurved bill. It is a hardy bird that does not migrate as far south during the winter as most other small waders. Introduction Article is just the first of 11 articles in each species account that provide life history information for the species. It is a very hardy bird that does not migrate as far south during winter as most of the other small waders.
