That is, by gaining a better understanding of the approach-avoidance potentials associated with the need to belong we can provide a more comprehensive body of work. Based on this evidence, multiple and diverse problems are caused by the lack of belongingness and attachments. According to Baumeister and Leary, much of what human beings do is done in the context of a need to belong. Do we whine like the puppy in our example? Empathetic leaders are more likely to pay attention to differences among followers, and to consider a follower's belongingness needs when making decisions. You can't test out of the first two years of college and save thousands off your debt. In general, individuals seek out those who are most similar to .
